## SOC Graduates Twenty-Five in Liberia

We are very grateful to God for the privilege of being part of the School of Christ International and witnessing lives being changed in Liberia through the introduction of SOCI.

Liberia is a country on the West Coast of Africa founded by free people of color from the United States. History records show that of 4,571 emigrants who arrived in Liberia between 1820 and 1843, only 1,819 survived. After many years of enjoying the freedom of peace and unity, the civil war started, and it was one of Africa's bloodiest wars. From 1989 to 1996, it claimed the lives of more than 200,000 Liberians. The war displaced another million Liberians worldwide, such as my wife and I, and we have lived in the United States of America for over 32 years. It is an honor to bring such a powerful School of Christ to our people who have

impacted our ministry and lives over the years. In a time when Muslims and other religions are trying to dominate Christianity, it is time for us to work overtime for the Lord. Our goal is to train workers and pastors in every county and village in Liberia.

*Bishop Bedell and Mercy Horace*

We are very thankful for being able to overcome every hindrance that stood before us in the process of launching the School of Christ here in Liberia. We thank God for His faithfulness in every process that we went through. Liberia has surely been longing for a genuine School of Ministry with such powerful revelation and the

# Rwanda Report

by Robin St Clair

Robin St Clair  
SOC Vice President

In November, we had an incredible series of meetings in Rwanda, Africa. We witnessed the Lord stir, rekindle a passion for the work of the Lord,

and refresh many believers. Over the course of several days, myself

and a team of 15 from PAG had the opportunity to minister at different Pastor's Conferences across Rwanda. In these conferences, we were introduced to numerous pastors who had been through the School of Christ over the past 15 years. Many testified how the teachings of the SOC had changed their lives. One such pastor said that the change he experienced in the SOC stirred him to do more work for the Lord. Insomuch that the Lord used him to raise up a thriving church that has since been used to raise up other

thriving churches elsewhere across Rwanda. Many pastors expressed a great desire to go through the SOC again. To God be the glory.

## SOC Online Testimony

by Steve Allman

I had heard about The School of Christ through messages online recommended by other pastors I am associated with. I had the privilege of being in service with Brother Clendennen about 15 years ago in Berea, KY. I'll never forget the brokenness I was feeling as the Man of God was preaching, and after the

service, he came walking down the aisle and wrapped his arms around me to encourage me. So, after searching the SOC website & the Facebook page, I found that SOC lessons were offered online. It was God ordained. There had been a hunger for more of the Lord rising in my Spirit. I have studied the Bible and have followed some great men of God, but I had come to the point of wanting to know Jesus in a more intimate way. As the Apostle Paul wrote, "That I may know Him." This was and is my desire. The opportunity to study the School of Christ curriculum and give myself to prayer and revelation of the Spirit of God made this possible. I have been able to know

Him more than I ever have.

I used the lessons as a daily devotion while driving to work for at least one hour. Some days I would listen to more, but I wanted to take only a little in for one day. I allowed myself to pray and meditate over each lesson to gain more of what was being taught.

It was amazing to experience how the Lord works inside a man's heart to reveal His heart toward mankind. Sometimes that work was very convicting; other times, it became challenging to come up higher. It also caused a hunger inside me to continue to preach this glorious Gospel to whoever and wherever I can. Especially in an urgent time such as this.

God has recently opened an opportunity to take this Gospel into Nepal, and I believe the training of the ways of God through the School of Christ will be of great help as we take this good news to these wonderful people. Thanks again to the School of Christ and our Lord Jesus Christ for this opportunity. God bless you all.

# Liberia...

SOCI does bear witness to the True Light. Teaching the School of Christ in Monrovia was very exciting.

When the announcement was made, and people began to call and register, they could not believe that the SOCI had completely paid for the tuition, lodging, and meals.

We witnessed a real pouring out of the Holy Spirit in the morning prayer meetings. Sometimes the prayer meeting would last for almost an hour and a half. You could feel the presence of God as the students were worshiping and being blessed. Word spread all over the community of the intensity of prayer and worship.

The wife of a former president of Liberia, Her excellency Mrs. Nattie Blahe, heard about the School of Christ coming to Liberia and sent her pastor to attend. He encountered a genuine move of God at the School, and she informed us that he was on fire the first Sunday he was back at their church. His message and delivery were different, and people

were filled with the Holy Ghost. She attended two classes herself and was very excited about the School. She also attended the graduation service.

Thirty-two students were registered to attend the SOCI. Seven could not finish because of family emergencies, but twenty-five students graduated. The classes and prayer went from 6 am to 6:30 pm every day.

We have many areas in Liberia waiting for us to bring the SOCI so they can attend. Pastors are yearning for the Schools to go to various countries in Africa. While visiting the state of Abuja in Nigeria, we introduced the SOCI, and now they are waiting on us to run a School there. We are very excited about the various opportunities opening for the School of Christ in Africa. I am very grateful for my wife who works beside me and supports the School of Christ 100%.

Keep the work of Liberia and the surrounding areas in prayer as we go forward with the work God has

called us to do through the School of Christ International.

## Testimonies from the Liberian School:

*"The truth here is, before attending the School of Christ International, my understanding of the Bible regarding questions that I have struggled with were answered after carefully listening to the teachings of Pastor B.H Clendennen. I now have a beautiful experience and sound understanding after my graduation from the School of Christ, I am very confident in what I have learned. I believe that my doubts and fears are gone. I believe that I can be a great help to others that are having the same problems that I had before sitting under the teaching of Pastor B. H. Clendennen coming from Muslim background." Pastor John Kemokai*

*Well, I will first thank God and the School of Christ for the great knowledge I was imparted with. It was a wonderful opportunity to be gathered as a Christian family to learn the true Word of God together here in Liberia." Sis. Evangeline*
